

Yoga for Posture

This class has a gentle flow specifically designed to improve posture and create better body awareness, breath efficiency, and postural strength while minimizing strain on the spine. It is helpful for those with scoliosis, osteoporosis, and general back or neck pain.

Samana Lake, CYT, PT

Rigo Concept-BSPTS Therapist

Physical Therapist and Certified Yoga

Instructor educates participants on how to work with their bodies to create better posture and alignment, ease of movement, and less pain.
